

Shine Track

Track Your Future.....

About:

Shine Track is India's largest & fastest growing School Management Mobile Application. It is the outcome of the professional and entrepreneurial commitment of its founder Mr. Bajrang & Kapil Sharma, C.E.O. Mr. K.Ponnaiah along with its top management team. We aim to provide high quality customer-centric, service driven School Management Software and Mobile Application.

Shine Track App is an interactive web solution which automates school's diverse functional areas and can easily be customized for every school to suit their specifications. Our vision is to enhance the productivity and increase the opportunities for everyone in the educational ecosystem. We have entered the age of Digital Technology where technology is paving path for fastest growth.

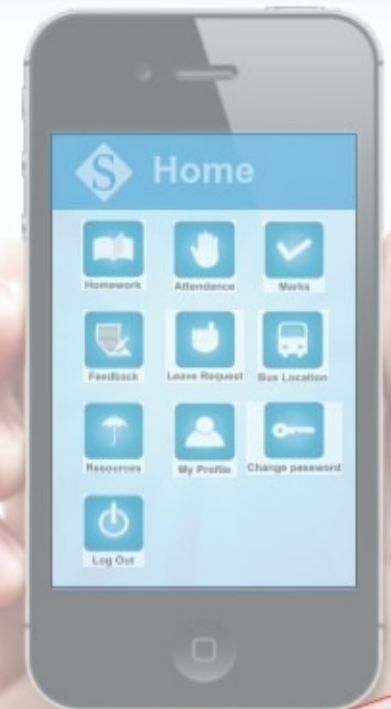

Shine Track App is a medium to stay connected and updated. This App connects school and parents on regular basis and gives them an opportunity to go hand in hand with the advance world. It bridges the gap among teachers, parents and students who use this technology.

Shine Track App is a new online method for school and is user friendly with an attractive interface to keep track of students. This App is an effective and updated application to make education system simpler and more interactive. Shine Track is working in 5 states of India and it aims to work across Pan India.

Add new Students of your school

RFID CARD BASED

We also provide RFID Card based attendance system, this uses RFID Reader and card to store attendance of students. The existing attendance system is manual and it is taken on paper which consumes a lot of time. As we are aware that presently schools use attendance register to mark the attendance. It is more tedious. Also the administrator person needs to maintain the attendance record. Problem with existing attendance system is that wrong attendance multiple times entry at various points thus increasing the chances of human errors, to avoid such problems we have come up with this technology which is easy to use and maintain, gives the parents a live update about their children's whereabouts.

BUS TRANSPORTATION MANAGEMENT

- Our transport management solution has the following features:
- Our transport management solution has the following features:
- View exact real time location of the vehicle
- Works throughout the globe
- Auto alerts are generated when the vehicle deviates from the path.
